PGY-1 Residency Program Overview

Facility Information
The MaineGeneral Medical Center (MGMC) PGY1 Pharmacy Residency is based at the Alfond Center for Health (ACH), a 192-private-bed regional hospital in Augusta, ME. Services include emergency and critical care, a full range of inpatient surgeries, diagnostics, substance abuse and mental health services, maternity and pediatrics. In addition, MaineGeneral has a state-of-the-art outpatient cancer treatment center, the Harold Alfond Center for Cancer Care, located adjacent to the ACH. MGMC is a teaching hospital affiliated with Dartmouth Medical School and the University of New England College of Osteopathic Medicine in Biddeford, ME.
