

# Think MaineGeneral HomeCare

If your patient has any of the following, think about MaineGeneral HomeCare and ask for an evaluation:

- Recent or multiple hospitalizations or ED visits
- A recent skilled facility or rehab stay
- A complicated or complex wound
- A new or troublesome ostomy
- Needs direct care, such as:
  - Wound care
  - Injections
  - IV infusion
  - Foley catheter changes
  - Tube feedings
- Physical or occupational therapy for functional decline, frequent falls or speech therapy for cognitive, speech or swallowing issues
- Needs assessment and education of an unstable condition
- Needs chronic disease management assessment and education
- Needs medication reconciliation or medication management education of new/changed medications
- Is recovering from surgery
- Needs palliative care and support

MaineGeneral HomeCare can help you offer the best possible care to patients in their home. Please call our referral department to schedule an in-home evaluation.
