organizations as described in Section 501(c)(3) of the Internal Revenue Code (the Code) and, accordingly, are exempt from federal income taxes on related income pursuant to Section 501(a) of the Code. Accordingly, no provision for income taxes has been recorded in the accompanying consolidated financial statements for these tax-exempt organizations.

The Captive is a limited liability company (LLC) under the Federal Income Tax Code and as a LLC passes its income or loss for federal and state tax purposes to its members.

Tax-exempt organizations could be required to record an obligation for income taxes as the result of a tax position they have historically taken on various tax exposure items including unrelated business income or tax status. Under guidance issued by the Financial Accounting Standards Board, assets and liabilities are established for uncertain tax positions taken or positions expected to be taken in income tax returns when such positions are judged to not meet the "more-likely-than-not" threshold, based upon the technical merits of the position. Estimated interest and penalties, if applicable, related to uncertain tax positions are included as a component of income tax expense. The Company has evaluated the tax positions taken on its filed returns. The Company has concluded no uncertain income tax positions exist at June 30, 2018. The Company's tax years from 2015 through 2018 are considered to be open and potentially subject to examination by the Internal Revenue Service.

Part V, Section B, Line 5: Community engagement using shared CHNA reports for local and regional planning is a critical part of the needs assessment and health improvement planning process. For some, working with a community means engaging community partners at the organizational or agency level, and for others it entails working with individual community members or working with community leaders who represent specific populations. Both types of engagement satisfy the IRS and Public Health Accreditation Board. Community feedback was used to collaboratively create 3-year implementation strategies, also called implementation plans.

The process, co-led by Maine CDC District Liaisons and representatives from Maine SHNAPP not-for-profit hospitals, achieved the following:

Ensured broad interests of the local community were represented; Obtained stakeholder input on identifying significant health needs based on review of data; Solicited stakeholder feedback on prioritizing significant health needs; and Identified local assets and resources that could address local health priorities.

Preparing for Community Engagement

The planning process included the District Liaison from the Maine CDC and representatives from participating Maine SHNAPP hospitals in the region. The leaders reached out to community benefit leadership among other local not-for-profit hospitals, local public health departments, and other

Key Informant Interviews: Interviews are focused conversations. They are used to learn about assumptions and perceptions in our communities about health issues, resources, and actions.

Focus Groups: Focus groups are discussions led by a trained facilitator among a small group of people. Members of the group share opinions about the topic at hand and offer suggestions.

Written or Electronic Surveys: Surveys provide a consistent and structured method for asking questions among a selected group of people. People responding to surveys share their experience or feedback at their convenience without the potential influence of responding to a person.

Group Presentations with Structured Feedback: Instead of a forum or focus group, a presentation of an issue using prepared slides or handouts can be planned during a regularly scheduled meeting of a group such as a Rotary Club, school booster club, public health nursing staff meeting, or patient advisory board, etc. with the goal of gaining input through nominal group process or a variation to obtain individual votes and recommendations.

Part I, Line 7:

Charity care is billed at no more than the "amount generally billed" i.e. the average of the commercial rates and Medicare rates for emergency and other medically necessary services, and is included in net patient service revenues. Costs and expenses incurred in providing these services are included in operating expenses. Charges for services rendered to individuals from whom payment is expected and ultimately not received are written off and included as a reduction of revenue as part of the provision for bad debts.

The organization's bad debt expense cost is calculated using a ratio of total patient related expense over gross charges. This is applied to total provision for bad debts, which is recorded at gross charges.

Part I, Ln 7 Col(f):

A provision for charges for services rendered to individuals from whom payment is expected and ultimately not received is written off and included as an operating expense as part of the provision for bad debts.

Part VI Supplemental Information (Continuation)

The organization's bad debt expense is calculated using a ratio of total expenses over gross charges. This is applied to total provision for bad debts which is recorded at gross charge less any applicable discounts.

Part II, Community Building Activities:

MaineGeneral Health and Affiliates offers a variety of classes and community health outreach events to support and build our community. Such events range from cancer survivor classes and support groups, breastfeeding classes, sibling classes, a safe babysitter program and parenting education.

The organization provides a wide range of programs to support a healthy and well educated community throughout all ages and health care situations. The organization offers diabetes care and smoking cessation classes, along with support groups for area individuals with a variety of health problems including Alzheimer's disease, bariatric surgery needs, brain injury, stroke and hospice. Space is provided free of charge and in some cases the support groups are managed and staffed by MaineGeneral employees.

Part III, Line 4:

For receivables associated with self-pay patients (which includes both patients without insurance and patients with deductible and copayment balances due for which third-party coverage exists for part of the bill), the Medical Center records a provision for bad debts in the period of service on the basis of its past experience, which indicates that many patients are unable or unwilling to pay the portion of their bill for

Part VI Supplemental Information (Continuation)

which they are financially responsible. The difference between standard rates (or discounted rates if negotiated) and the amounts actually collected after all reasonable collection efforts have been exhausted is charged off against the allowance for doubtful accounts.

The organization's bad debt expense is calculated using a ratio of total expenses over gross charges. This is applied to total provision for bad debts which is recorded at gross charges less any applicable discounts.

A significant portion of the uncollectable patient balances relate to individuals and families which are uninsured and with income levels over the uncompensated care guidelines. The write-off of these uncompensated balances provides community benefit for patients and families that can not afford to pay for their healthcare costs in addition to their other living expenses.

Part III, Line 9b:

In accordance with the Affordable Care Act and the IRS 990 rules, individuals, once identified as eligible for the Organization's uncompensated care program, will be billed no more than the amount generally billed i.e. the average of the three best, negotiated commercial rates and Medicare rates for emergency and other medically necessary services.

Part VI, Line 2:

MaineGeneral representatives participated in 12 of 16 community engagement forums and events held in the Central Public Health District between Sept. 11, 2015 and March 23, 2016. These forums and events involved individuals

Part VI Supplemental Information (Continuation)

who represent the broad interest of the community.

Sectors attending included: public health, medical staff leadership, nurses, social workers, health care administration, local and state government, low income community representatives, community health coalitions, non-profit agencies, behavioral health service providers, public schools, local police and the faith community.

These community engagement forums and events were an essential component of the Maine Shared Health Needs Assessment Planning Process (SHNAPP) Community Health Needs Assessment (CHNA), allowing for community members to review state and local health data and identify the next steps required to address the identified community health priorities. Participants in some of the forums met in small, focused groups to discuss opportunities for collaboration on specific priority issues. Other engagement events involved questions, suggestions and discussion about possible implementation strategies that a hospital system could lead or contribute to in some way.

In addition, MaineGeneral convened its Community Health Improvement Committee (CHIC) board of directors committee and invited key stakeholders with expertise in mental health and substance use disorders, chronic disease, obesity, tobacco use and access to care. The CHIC scheduled a series of meetings which were attended by representatives from MaineGeneral Community Care, MaineGeneral Quality Department, Emergency Department medical staff, Family Medicine Residency staff, MaineGeneral leadership, MaineGeneral Health Board of Directors, and the Center for Prevention and Healthy Living. The CHIC then developed MaineGeneral's Community Health Implementation Plan based on the results of the series of meetings. The Community Health Implementation Plan includes goals,

Part VI Supplemental Information (Continuation)

strategies, outcomes and resources committed and needed for each of the five priority areas identified.

Chronic disease

Obesity

Tobacco use and exposure

Access to care

Substance use disorders

The CHIC selected strategies the health care system is uniquely positioned to address. In addition it identified the community partners MaineGeneral will be working with to address the priority areas. All of the priorities identified by the community forums and events were included in the CHIP.

Part VI, Line 3:

For inpatient stays, the Medical Center Patient Registration Department provides a written notice regarding the availability of the uncompensated services program to inpatients upon admission or, in the case of an emergency, before discharge.

In those rare cases where the notice was not given to the patient at admission or upon discharge due to unavoidable circumstances, a charity care notice was sent with the initial patient bill.

All outpatient departments including provider based practices provide patients access to the written notice of the availability of the uncompensated services program at the time of service. Initial patient bills include a notification to patients on the availability of the uncompensated services program. Subsequent patient billings also include notices to patients about the availability of the program.

Part VI Supplemental Information (Continuation)

During this process, if it appears that a patient is qualified for the government programs, the program application is provided to the patient and a patient financial services representative provides any assistance required in educating the patient on properly preparing the application.

Current income guidelines are displayed in all business offices, main patient registration areas and emergency departments. The posted guidelines are updated annually based on changes in the federal poverty guidelines.

The Hospital makes all reasonable efforts to communicate the contents of the income guidelines to persons that it has reason to believe cannot read the notice.

Part VI, Line 4:

MaineGeneral Medical Center's service area consists of a population of approximately 180,000 residents covering 120 square miles living in 82 communities. This population represents 100% of Kennebec County, 87% of Somerset County, 24% of Waldo County, 20% of Lincoln County, 8% of Sagadahoc County and 3% of the Knox County population. The primary service area (PSA) is defined as the zip codes where MGH has the majority of discharges. The secondary service area (SSA) is defined as zip codes where MGH has 15% or greater, but less than a majority of total discharges.
